EXPERT TRAINERS

Building *resilient* data platforms

Edstellar is an enterprise learning partner that helps organizations build future-ready workforces. Our 2,000+ instructor-led programs are delivered onsite or live online by 5,000+ practitioner trainers, and each one is tailored to your goals. This catalog brings together 42 databases programs that span relational database administration, NoSQL, search and in-memory stores, cloud data warehousing, graph and vector databases, and the SQL language and migration.

Global leaders including Visa, ABB and Aditya Birla Group trust Edstellar to build capability at enterprise scale. Before any program starts, we look at the real capability gap and the business goal behind it, so every module ties back to outcomes your leaders can measure, not just attendance. The result is database skills your teams put to work straight away.

Learning paths for *every* role

Database Administrators

OPERATE & TUNE

Install, secure and tune relational databases so they stay fast, available and reliable.

START WITH

- Oracle Database Administration (19c/23ai)
- Microsoft SQL Server
- PostgreSQL

NoSQL & Distributed Data Engineers

SCALE & DISTRIBUTE

Design and run NoSQL, search and in-memory stores that scale across high-volume workloads.

START WITH

- MongoDB
- Apache Cassandra
- Redis

Data Warehouse & Analytics Engineers

MODEL & ANALYZE

Build cloud warehouses and write the SQL that turns raw data into business insight.

START WITH

- Snowflake
- Amazon Redshift
- SQL for Business & Data Analytics

AI & Graph Data Specialists

GRAPH & VECTOR

Stand up graph and vector databases that power knowledge graphs and AI applications.

START WITH

- Neo4j
- Vector Databases for AI Corporate Training
- Graph Data & Knowledge Graphs

Why *choose* us

01

Practitioner trainers

5,000+ verified DBAs, data engineers and reliability specialists who run production databases at scale.

02

Customizable programs

Curriculum built around your database platforms, workloads, cloud estate and performance goals.

03

Global delivery

Onsite or live virtual in any time zone, with in-person delivery across 1,000+ locations.

04

ISO 9001 & ISO 27001 certified

ISO 9001:2015 for quality and ISO 27001:2022 for information security.

How we *work*

01

Submit your brief

Share your training needs, team size and skill gaps.

02

Custom plan

Receive a tailored curriculum and trainer recommendations.

03

Approve & schedule

Finalize content, dates and delivery mode for your team.

04

Train & measure

Expert-led sessions with progress tracking and ROI reporting.

42 courses in total · full list on the pages that follow

All 42 courses

01 Relational Database Administration

14

Administering Microsoft Azure SQL Solutions	→
AWS RDS	→
Big Data Greenplum DBA	→
Informix DBA	→
Microsoft Access	→
Microsoft SQL Server	→
MySQL & MariaDB Administration	→
Oracle Database Administration (19c/23ai)	→
Oracle Database High Availability (RAC, Data Guard, GoldenGate)	→
Oracle Exadata & Autonomous Database Operations	→
Oracle GoldenGate & Change Data Capture	→
PostgreSQL	→
PostgreSQL Performance Tuning	→
SQL Server DBA	→

02 NoSQL, Search & In-Memory Databases

8

Amazon DynamoDB	→
Apache Cassandra	→
Apache HBase	→
Elasticsearch	→
InfluxDB	→
Microsoft Azure Cosmos DB	→
MongoDB	→
Redis	→

03 Cloud Data Warehousing

3

Amazon Redshift	→
Snowflake	→
Teradata	→

04 Graph & Vector Databases

3

Graph Data & Knowledge Graphs	→
Neo4j	→
Vector Databases for AI Corporate Training	→

05 SQL Language

3

Oracle SQL & PL/SQL	→
SQL	→
SQL for Business & Data Analytics	→

06 Database Migration & Reliability

2

Database Reliability & Performance Engineering	→
Enterprise Database Migration	→

07 More Databases Topics & Tools

9

Couchbase	→
CouchDB	→
ERwin Tool	→
Informatica Administrator	→
PouchDB	→
RavenDB	→
SPARQL	→
SQLite	→
Sybase	→

Trusted by *enterprises*

“*Edstellar took our database teams from reactive firefighting to disciplined administration. The relational DBA and reliability training cut our incident volume sharply, and the cloud data warehousing modules got our analytics platform live months ahead of plan.*”

DIRECTOR OF DATA ENGINEERING · GLOBAL FINANCIAL SERVICES GROUP

“*The NoSQL and in-memory database sessions gave our engineers the depth to redesign our highest-traffic services. Latency dropped and the architecture is finally ours to own.*”

HEAD OF PLATFORM ENGINEERING · FORTUNE 500 RETAILER

“*Their database migration program de-risked a move we had been postponing for two years. We cut over with zero data loss and no weekend outage.*”

VP OF INFORMATION TECHNOLOGY · MULTINATIONAL INSURANCE PROVIDER

TRUSTED BY

Visa

ABB

Aditya Birla Group

& OTHER FORTUNE 500 ORGANIZATIONS
