EXPERT TRAINERS

Building *dependable* IT foundations

Edstellar is an enterprise learning partner that helps organizations build future-ready workforces. Our 2,000+ instructor-led programs are delivered onsite or live online by 5,000+ practitioner trainers, and each one is tailored to your goals. This catalog brings together 32 IT infrastructure programs that span servers, virtualization and end-user computing, UNIX, Linux and mainframe administration, data centre operations, and backup and data protection.

Global leaders including Visa, ABB and Aditya Birla Group trust Edstellar to build capability at enterprise scale. Before any program starts, we look at the real capability gap and the business goal behind it, so every module ties back to outcomes your leaders can measure, not just attendance. The result is infrastructure skills your teams put to work straight away.

Learning paths for *every* role

Infrastructure & Virtualization Engineers

VIRTUALIZE & HOST

Build and run server, virtualization and end-user computing platforms across the estate.

START WITH

- VMware vSphere Administration
- Windows Server Administration
- Virtual Desktop Infrastructure (Citrix VAD, Azure AVD)

Linux & Unix Administrators

OPERATE & AUTOMATE

Administer and automate Linux and Unix systems that keep enterprise workloads running.

START WITH

- Red Hat System Administration
- Ubuntu Linux Administration
- Linux Administration

Mainframe & Enterprise Platform Specialists

MODERNIZE CORE SYSTEMS

Run and modernize mainframe and enterprise Unix platforms that carry mission-critical work.

START WITH

- IBM Mainframe (z/OS) Administration & Modernisation
- IBM AIX Administration
- Oracle Solaris Administration

Data Centre & Resilience Teams

PROTECT & RECOVER

Operate data centres and protect data so services stay available and recoverable.

START WITH

- Data Center Management
- Commvault
- Shell Scripting & Automation for Linux

Why *choose* us

01

Practitioner trainers

5,000+ verified infrastructure engineers, system administrators and virtualization specialists who run enterprise estates.

02

Customizable programs

Curriculum built around your platforms, operating systems, data centre footprint and modernization goals.

03

Global delivery

Onsite or live virtual in any time zone, with in-person delivery across 1,000+ locations.

04

ISO 9001 & ISO 27001 certified

ISO 9001:2015 for quality and ISO 27001:2022 for information security.

How we *work*

01

Submit your brief

Share your training needs, team size and skill gaps.

02

Custom plan

Receive a tailored curriculum and trainer recommendations.

03

Approve & schedule

Finalize content, dates and delivery mode for your team.

04

Train & measure

Expert-led sessions with progress tracking and ROI reporting.

Data Center Management	→
------------------------	---

06 More IT Infrastructure Topics & Tools

4

Fedora	→
NVMe	→
UNIX Fundamentals	→
Web Server IIS Mastery	→

Trusted by *enterprises*

“Edstellar modernized how our infrastructure teams work. The servers and virtualization training let us consolidate our estate, the Linux and Unix administration tracks closed a skills gap we had carried for years, and our data centre operations run far more reliably now.

VP OF IT INFRASTRUCTURE · GLOBAL LOGISTICS FIRM

“The end-user computing and virtualization modules gave our team the confidence to roll out a new desktop platform across every site without disruption.

DIRECTOR OF IT OPERATIONS · MULTINATIONAL HEALTHCARE PROVIDER

“Our backup and data protection posture went from a worry to a strength. The training paid for itself the first time we had to restore under pressure.

HEAD OF INFRASTRUCTURE · LEADING ENERGY COMPANY

TRUSTED BY

Visa

ABB

Aditya Birla Group

& OTHER FORTUNE 500 ORGANIZATIONS
