EXPERT TRAINERS

Building *connected* enterprises

Edstellar is an enterprise learning partner that helps organizations build future-ready workforces. Our 2,000+ instructor-led programs are delivered onsite or live online by 5,000+ practitioner trainers, and each one is tailored to your goals. This catalog brings together 28 networking programs that span enterprise and data centre networking, routing and switching, wireless and Wi-Fi, load balancing, network security, and network automation.

Global leaders including Visa, ABB and Aditya Birla Group trust Edstellar to build capability at enterprise scale. Before any program starts, we look at the real capability gap and the business goal behind it, so every module ties back to outcomes your leaders can measure, not just attendance. The result is skills your network teams put to work straight away.

Learning paths for *every* role

Network Engineers

DESIGN & OPERATE

Design, configure and troubleshoot the enterprise networks your business runs on.

START WITH

- Cisco CCNA Certification Training
- Enterprise Networking Fundamentals
- Network Configuration and Troubleshooting

Data Centre & Infrastructure Teams

CORE & DATA CENTRE

Run high-availability core and data centre fabrics that scale with demand.

START WITH

- Cisco CCNP Enterprise Training
- Cisco Nexus & Data Centre Fabric
- Cisco UCS

Network Security Specialists

SECURE THE EDGE

Protect the network perimeter with firewalls, VPNs and sound security fundamentals.

START WITH

- Introduction to Network Security
- Introduction to Firewalls
- Virtual Private Networks (VPN)

Automation & Load-Balancing Engineers

AUTOMATE & BALANCE

Automate configuration and keep traffic flowing with modern load balancing.

START WITH

- Python Network Automation
- F5 BIG-IP Administration
- F5 LTM Load Balancer

Why *choose* us

01

Practitioner trainers

5,000+ verified network engineers, security specialists and infrastructure architects who run enterprise networks in real roles.

02

Customizable programs

Curriculum built around your vendors, topology, security posture and network maturity.

03

Global delivery

Onsite or live virtual in any time zone, with in-person delivery across 1,000+ locations.

04

ISO 9001 & ISO 27001 certified

ISO 9001:2015 for quality and ISO 27001:2022 for information security.

How we *work*

01

Submit your brief

Share your training needs, team size and skill gaps.

02

Custom plan

Receive a tailored curriculum and trainer recommendations.

03

Approve & schedule

Finalize content, dates and delivery mode for your team.

04

Train & measure

Expert-led sessions with progress tracking and ROI reporting.

Trusted by *enterprises*

“*Edstellar's enterprise and data-centre networking training got our engineers confident on real production topologies, and our data-centre refresh ran without the downtime we feared.*”

VP OF NETWORK INFRASTRUCTURE · GLOBAL TELECOMMUNICATIONS GROUP

“*Our team now designs and troubleshoots enterprise networks with far more consistency. The hands-on labs made the difference.*”

DIRECTOR OF IT INFRASTRUCTURE ·
MULTINATIONAL LOGISTICS FIRM

“*We closed a long-standing skills gap in network operations. The trainers understood both the vendor platforms and our actual environment.*”

HEAD OF NETWORK OPERATIONS · LEADING
FINANCIAL SERVICES GROUP

TRUSTED BY **Visa** **ABB** **Aditya Birla Group** & OTHER FORTUNE 500 ORGANIZATIONS
