EXPERT TRAINERS

Shipping software with *confidence*

Edstellar is an enterprise learning partner that helps organizations build future-ready workforces. Our 2,000+ instructor-led programs are delivered onsite or live online by 5,000+ practitioner trainers, and each one is tailored to your goals. This catalog brings together 20 software testing programs that span performance and load testing, functional and regression testing, test automation tools, exploratory and compatibility testing, and integration and unit testing.

Global leaders including Visa, ABB and Aditya Birla Group trust Edstellar to build capability at enterprise scale. Before any program starts, we look at the real capability gap and the business goal behind it, so every module ties back to outcomes your leaders can measure, not just attendance. The result is training your QA teams put to work straight away.

Learning paths for *every* role

QA & Test Leads

QUALITY ASSURANCE

Plan and lead testing across functional, integration and regression cycles.

START WITH

- Integration Testing
- Regression Testing
- Use Case Testing

Performance & Load Engineers

PERFORMANCE TESTING

Design and run performance and load tests that keep applications fast under pressure.

START WITH

- Performance & Load Testing (JMeter, k6)
- Introduction to Performance Testing
- Web Application Testing with Selenium and JMeter

Test Automation Engineers

AUTOMATION & SERVICES

Automate test suites and virtualize services across the delivery pipeline.

START WITH

- Katalon
- JavaScript Unit Testing
- SoapUI

Exploratory & Compatibility Testers

EXPLORATORY TESTING

Find defects early through exploratory, compatibility and black-box testing.

START WITH

- Exploratory Testing
- Compatibility Testing
- Black-box Testing

Why *choose* us

01

Practitioner trainers

5,000+ verified QA engineers and test specialists who assure quality on real software products.

02

Customizable programs

Curriculum built around your test stack, release cadence, platforms and quality goals.

03

Global delivery

Onsite or live virtual in any time zone, with in-person delivery across 1,000+ locations.

04

ISO 9001 & ISO 27001 certified

ISO 9001:2015 for quality and ISO 27001:2022 for information security.

How we *work*

01

Submit your brief

Share your training needs, team size and skill gaps.

02

Custom plan

Receive a tailored curriculum and trainer recommendations.

03

Approve & schedule

Finalize content, dates and delivery mode for your team.

04

Train & measure

Expert-led sessions with progress tracking and ROI reporting.

Trusted by *enterprises*

“*The performance testing program exposed bottlenecks we had shipped past for years. Our release confidence is completely different now, and load events that once caused outages pass quietly.*”

VP OF ENGINEERING · GLOBAL TECHNOLOGY FIRM

“*Test automation training moved our QA team from manual regression marathons to fast, reliable suites. Release cycles tightened without sacrificing coverage.*”

DIRECTOR OF QUALITY ENGINEERING · LEADING FINANCIAL SERVICES GROUP

“*Our teams learned to treat performance and reliability as first class work. Defects caught before production dropped sharply.*”

HEAD OF QA · FORTUNE 500 RETAILER
